consultation
(tick if required)

No. in party

All bookings require a 20% deposit to secure the day, which is nonrefundable.

Extra members can be added with a 72 hour notice prior to the day.

Balance to be paid in full 7 days prior.
(Cheque acceptable 2 weeks prior)

making the cut.

You will experience an in depth consultation to determine your exact requirements. This will be followed by a shampoo and conditioner (suited to your hair type), a precision cut or style from one of our stylists and finished with specialist products to create the look you require.

cut throat shave.

Using hot towels, scented with our exclusive oils, we will prepare you for a wet shave by one of our specialists.

Following the shave, we will moisturise your skin and offer expert advice on incorporating grooming products into your daily routine and how to achieve professional results at home.

botox.

Botulinum Toxin is an excellent treatment used to diminish lines in different parts of the face, such as forehead lines, crows feet and frown lines.

Botox is injected into the muscle, causing the muscle to relax. It takes 2-3 days to start working and full effects will be noticed within two weeks, resulting in the majority of lines disappearing.

1 area **£170**

2 areas **£300**

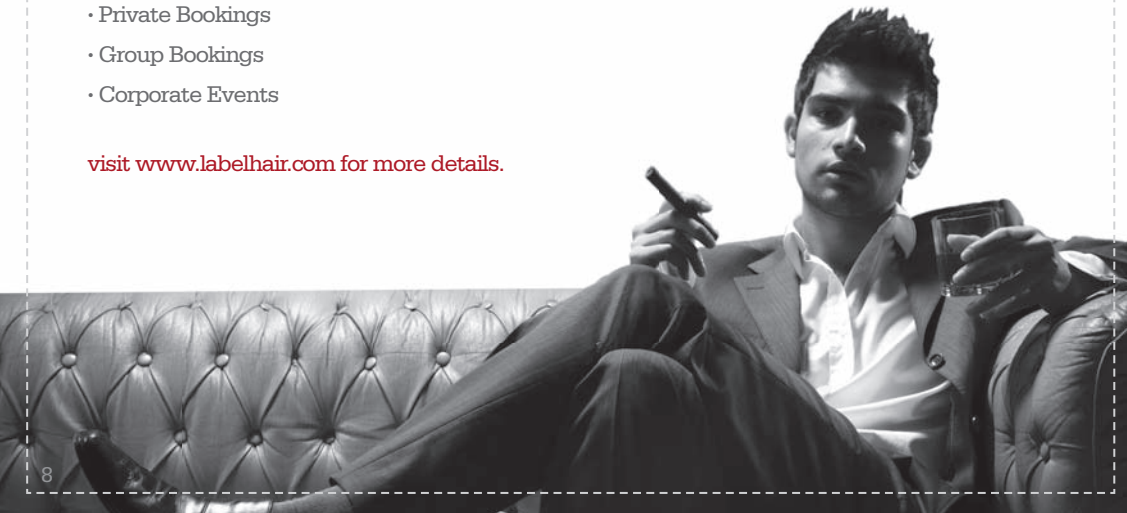

3 areas **£400**

Fillers also available.
Prices available on request.

we are also available for...

- Private Bookings
- Group Bookings
- Corporate Events

visit www.labelhair.com for more details.

luxurious facial.

Skin is cleansed, toned and exfoliated using products containing antiseptics, fruit enzymes and antioxidants helping to open up and unblock pores. Finally it is moisturised to restore all clarity, texture and elasticity leaving the skin feeling rejuvenated and revitalised. An ideal treatment for the apprehensive groom.

manicure.

Manicures began 5000 years ago. The word manicure derives from the Latin meaning “manus”, for hand, and “cura” for care. Nowadays, manicures are used by all, particularly by men, for special events, including weddings.

Our executive manicure uses aromatic oils to relax the hands. Cuticles are tidied and nails are shaped and buffed to a natural shine. The treatment is then completed with a relaxing hand massage.
